

REMARKS

This amendment supplements the October 6, 2005 Amendment After Final Rejection which was requested for entry by the Request for Continued Examination Transmittal Letter of November 7, 2005. Reconsideration and allowance of the present application are respectfully requested based on the Supplemental Amendment. Claims 1-20, 22, 23, 25, 27, 28, 30, 32 and 33 remain pending in the application. By the foregoing amendment, claims 1, 8, 10, and 12 are amended.

A personal Interview was held on December 5, 2005 between Examiner Lee and Applicants' representative. A summary of the interview is provided below.

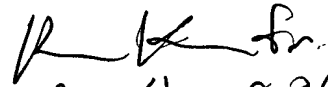

During the interview, Examiner Lee raised an issue with " the at least one electromechanical means comprises at least one of a piezoelectric element with a moveable shutter and an electrostatically actuated shutter," as recited in claim 1, along with claims 8, 10, and 12. While the Applicants' representative traversed the Examiner's objection, in the interest of advancing the prosecution of the Application, independent claims 1, 8, 10 and 12 are amended as discussed.

For the foregoing reasons, Applicant's claims 1, 8, 10, 11 and 12 are allowable. The remaining claims depend from the independent claims and recite additional advantageous features which further distinguish over the documents relied upon by the Examiner. As such, the present application is in condition for allowance.

All objections and rejections raised in the Office Action having been addressed, it is respectfully submitted that the application is in condition for allowance and a Notice of Allowance is respectfully solicited.

Respectfully submitted,

BUCHANAN INGERSOLL PC
